

IT'S ALL ABOUT
PROFITABILITY

QUICK, ACCURATE AND REPEATABLE WHEEL ALIGNMENT

SIMPLE AND UNCOMPLICATED

3 axle vehicle	4 min
4 axle vehicle	5 min
Truck and trailer	9 min

LET'S MAKE A GOOD DEAL

Optimal conditions for
working with preventive
wheel alignment

It's never been
easier to perform
wheel alignment

~2/3 OF EUROPEAN TRUCKS & TRAILERS ARE OUT OF ALIGNMENT

This is leading to high costs for tire wear and fuel consumption

There is money to be earned and money to be saved

A mechanic in a red jumpsuit is inspecting the engine of a car. He is holding a flashlight and looking upwards. The scene is lit with a strong red light, creating a dramatic and focused atmosphere. The background shows various mechanical parts of the engine and the car's chassis.

ADDITIONAL BENEFITS

Increased value for the service contract

Better driving comfort

Safer vehicle

RETURN ON INVESTMENT

SUCCESS STORIES

“JOSAM i-track is superior in terms of diagnostic and a must when measuring buses and coaches.”

Lasse Pedersen, Technician
Wist Last & Buss AB, Sweden

“We have saved both tires and fuel and driving comfort has increased on the vehicles. The short measuring time, despite several steerable axles, is crucial.”

Magnus Vredin, Haulage contractor
Bjännsjö Kranbilar AB, Sweden

“High level of service creates more secure and safer customers. We know that it is developing the business. We work extensively with education and to help our customers if they have questions that appear. With JOSAM i-track, we have achieved a rapid development. Measuring times have been reduced significantly, the technology is getting more commercial.”

...

“In our markets, the environmental issue is very important. Wheel alignment reduces both tire dust and fuel consumption.”

Peter Kosteljik, Sales Manager
Nederman, Belgium, Netherlands, Luxembourg

“We have been working with wheel alignment for more than 30 years. Pesci was a pioneer and has been involved in developing the Italian market. Our goal has been to support our customers, we have identified a number of measures that were crucial to our success. This is about our workshop that works as a training centre, our technicians that support our customers’ technicians, an open “Hot Line phone”. In Italy, we have also built up a network of specialists. There are 36 companies that meet regularly and help each other to develop their business.”

Stefano Quarena, Sales & Marketing Manager
Pesci Attrezzature Srl, Italy

“Since the equipment is very simple, fast to use and the results of the measurements are very precise, we now perform more alignments than ever before. This has resulted in very positive feedback from our customers, as they benefit from decreasing costs in tire and fuel consumption within their fleet. In addition, the overall driving comfort is improved, which is greatly appreciated by the drivers.”

Frank Jessen, Manager
Iveco Nord Nutzfahrzeuge GmbH, Germany
