

Software Engineer- JOSAM

Description

We are looking for a committed and inspired Software Engineer who is passionate about software development.

Your Role

As a Josam Software Engineer, you will be involved in development of our software from idea to finished product. You will be part of our local engineering team in Örebro and with our teams around the world. We will work in close co-operation with our technical experts and sales organization to create the best customer solutions. This role also includes supporting our end customers and distributors.

If you are an innovative Software Engineer who wants to be an important member in developing, improving and streamlining our products, we would like to hear from you.

Required Skills and Knowledge

Several years of prior experience of software development is required.

- Deep knowledge of object-oriented software development, within the .Net platform (C++, C#).
- Good knowledge of relational databases (SQL, SQLite).
- Good knowledge in source code management (GIT).
- Be able to work in a complex environment following agile working principles.
- Driven, inspiring self-learner with proven experience as a Software Engineer.
- Language skills: fluent in Swedish and English both written and verbally.
- Have a structured work approach.
- Good collaboration skills and self-motivated team player.

Desired Skills

- Experience of Javascript & HTML development.
- Embedded software knowledge
- Good experience and knowledge in Truck and Bus suspension adjustment.

The role is based in Örebro and travels domestically and abroad can be required.

Competence and experience are important, but personality is key! We are looking for a team player with a positive mindset and a personal drive. You need to be passionate for software development and engaged.

If you find this challenge exciting, we welcome your application.

About us

JOSAM and Car-O-Liner are global suppliers of repair, alignment and measuring equipment for the automotive aftermarket. Our products and services include equipment, systems, software and data for the repair of crash-damaged vehicles (passenger cars and heavy duty) and wheel alignment of heavy duty vehicles. All our systems and solutions are well known for their high quality, advanced technology and ergonomic design.

JOSAM and Car-O-Liner and many other brands are part of Snap-on Incorporated (US based) with operations in global locations. Please read more at www.josam.se , www.car-o-liner.com or www.snapon-totalshopsolutions.com

Application

By applying for the advertised position, you agree that Car-O-Liner Group AB will process your personal data in accordance with our Personal Data Collection Policy. <https://car-o-liner.com/sv/integritets-cookie-policy/>

If you are interested in joining a growing company, you are welcome with your application. Send your application containing your CV and cover letter no later than **March 26** to rekrytering@car-o-liner.se

The position should be filled immediately and the recruitment work is therefore ongoing during the application period. If you have any questions regarding the position, please call Dennis Ehlin, recruiting manager, on phone 070-3109908 or Kajsa Mumm, HR manager, on phone 0227-41200.
