

JO CBU/11150

Basic frame cab bench

Bassats hyttriktbank

Grundsatz Fahrerhausrichtbank

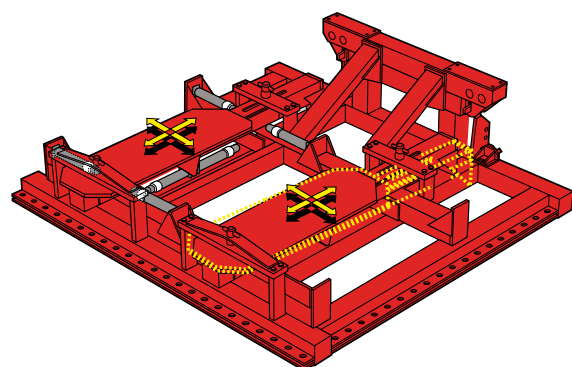

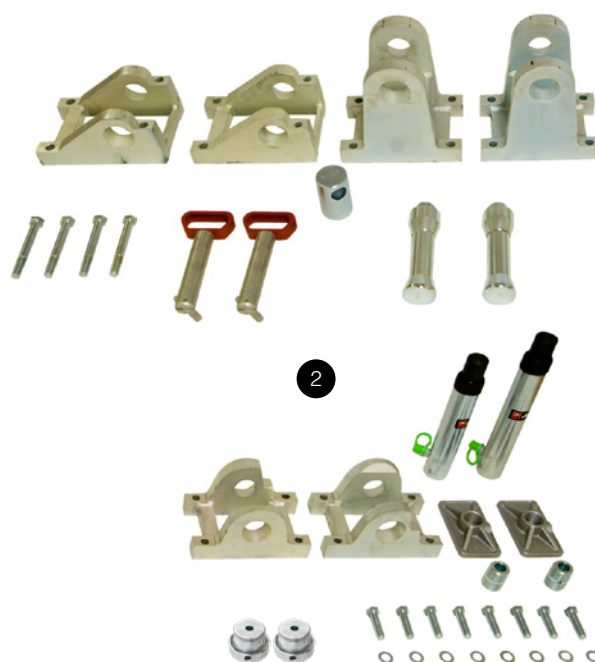

#	Article #	Order #	Pcs.	EN	SE	DE
1	JO201	13891	1	Cab bench	Hyttriktbank	Fahrerhausrichtbank
2	JO 201 BRACKET	14632	1	Base bracket kit for JO CBU	Basfästesats till JO CBU	Grundhaltersatz für JO CBU

JOSAM cab bench consists of a rigid base which is anchored to beams embedded in the workshop floor. Even a severely damaged cab can be mounted thanks to the movable jig fixtures. The base of the cab can then be pushed and pulled hydraulically into its correct position.

JOSAM cab bench består av en fast basfixtur som förankras i ingjutna balkar i verkstadsgolvet. Rörliga delar för framåt-bakåt- och sidorörelser gör det möjligt att fånga upp fästpunkterna på en mycket deformerad hytt. Den dras och pressas rätt i horisontellt läge med hjälp av endast två flyttbara 10-tons hydraulikcylindrar och speciella fästdon.

JOSAM cab bench ist in der Grundausrüstung eine Richtbank, die am Werkstattboden in vorher einbetonierten Trägern befestigt wird. Bewegliche Quer- und Längs-träger ermöglichen es, bei einem stark beschädigten Fahrerhaus, vorhandene Festpunkte zu fixieren. Die Befestigungspunkte werden mit Hilfe von zwei 10 to. Hydraulikzylindern je nach Deformierung in die richtige Lage gepreßt.

Note:

Floor fixations for the cab bench are not included in the basic kit!

(See chapter 3)

Obs!

Golvfästen till hyttbänken ingår inte i grundsatsen!

(Se kapitel 3)

Hinweis:

Die Bodenbefestigungen gehören nicht zum Lieferumfang!
