

UPGRADE TO JOSAM I-TRACK II

Take the opportunity to upgrade your Truckaligner or TruckCam 1 system to the light-weight and easy-to-use I-track II.

With I-track II you will benefit from small, ergonomic measuring heads, ADAS calibration capabilities* and a completely new software user interface. Choose between a fixed or mobile workplace.

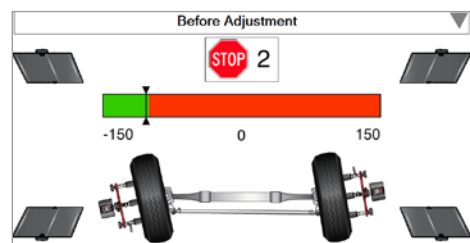

Trade-in discount

When scrapping the electronic parts of your old system† by sending them to your Josam representative, we will grant you a **net discount of SEK 10,000**. Contact your nearest Josam representative for more information on this upgrade offer or to receive a demonstration of the I-track II system.

The trade-in discount offer is valid within region Europe/Middle East/Africa until June 30th 2023.

* Applies to upgrade option 1 (fixed workplace). Additional tools required for ADAS calibration.

† At least one fully functioning measuring sensor and/or handheld computer is required.
