

C-CLAMPS

PRESSING AND RIVETING CLAMPS

Our product line of C-clamps for pressing and riveting are well-suited for heavy vehicle repairs. The clamps can be used as a complement regardless of the equipment available in the workshop. The range includes small 10-ton C-clamps for minor local deformations, up to a 40-ton C-clamp suitable for both pressing and riveting.

10-ton C-clamps

Easily straightens local deformations in confined areas. All 10-ton C-clamps are ergonomically designed.

10-ton C-clamp set

200 mm stroke | 200x100 mm gap

Art. no. **SR 29 K A/21572**

10-ton flat nose C-clamp

200 mm stroke | 200x100 mm gap

Art. no. **SR 31 K A/21567**

10-ton flat nose C-clamp

154 mm stroke | 110x90 mm gap

Art. no. **JO 1289 K A/21573**

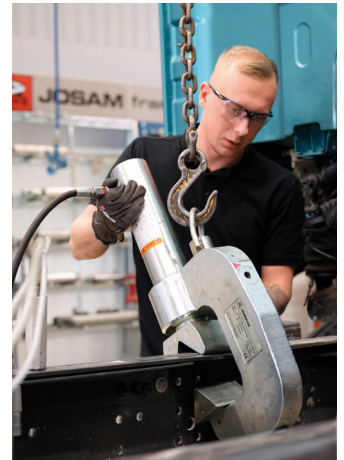

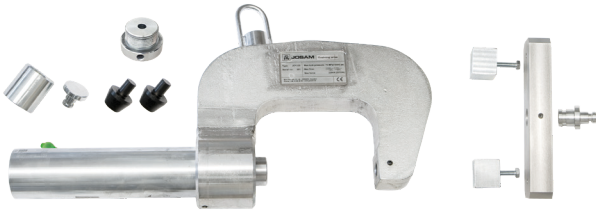

20-ton C-clamp

20-ton C-clamp set

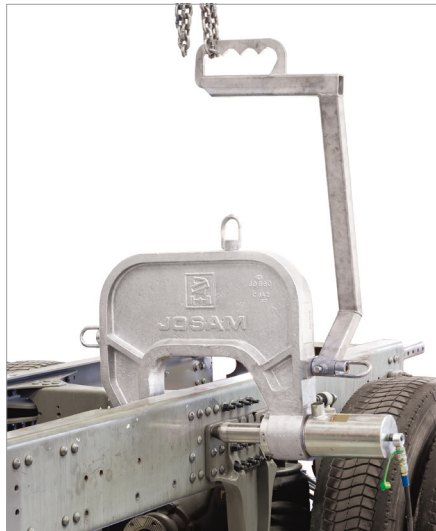

200 mm stroke | 180x120 mm gap

For pressing and riveting. The 20-ton press force, combined with yokes and press heads, supports controlled overloading of frame rails. Frame flanges are effectively straightened using the frame flange kit.

Riveting can be performed with rivets up to 13 mm (≈1/2"). A tow eyelet for overhead crane is included.

Art. no. **JO 1320 K A/21571**

Art. no. **SR 450 N R/12585**

40-ton C-clamp

40-ton C-clamp set

300 mm stroke | 320x120 mm gap

For pressing and straightening deformed frame rails. The press version is equipped with two different yokes with support and press heads and press heads, allowing the frame to be pressed beyond its initial position until it reaches its final form.

The 40-ton C-clamp is also ideal for cold riveting using a dolly and extender, up to 16 mm (≈5/8").

Delivered with trolley and a balance arm for suspension and maneuvering. A tow eyelet for an overhead crane is included.
